FCC
Proceeding 02-278

I request the FCC do not consider implementing any proposal that would lessen Indiana's Telephone Privacy Law protections.

Indiana's law has been efficient and extremely effective in allowing privacy during my time at home. Prior to the implementation of Indiana's Telephone Privacy Law, it was not uncommon to receive 12 to 15 unsolicited calls each evening between 5 and 10 pm. This was very disruptive and intrusive into my home life. Since the implementation of the law, it's rare that I receive any unsolicited calls, I would estimate the number to be less than 4 per month.

Once again, please do not consider implementation of any proposal that would weaken Indiana's Telephone Privacy Law.

Thank you for your consideration
